

Trust Boundaries, Data Flows, Access Points

RouteOne

RouteOne is a web-based application portal that allows dealerships to electronically submit credit applications to various lenders, including FHB. To participate in the RouteOne Credit Application Network, RouteOne is integrated with FHB's loan origination system (MeridianLink LoansPQ) via API.

- 1
- Prospective customers apply for car loan in-person at dealerships, views and chooses from list of approved lenders, and checks on status of loan via RouteOne.
- 2
- Dealerships submit loan applications to various lenders on behalf of customers, enters into contract with customers and become original creditor, and determines which chosen lender to sell the note to.
- 3
- Credit approval requests to FHB from car dealerships via API integration between RouteOne and MeridianLink LoansPQ; Credit Application Information is sent from RouteOne into Meridian Link. This will include PII. FHB Hawaii Dealer Division (HDD) manually approves/denies loan and Approval/Denial sent back to RouteOne From Meridian Link. This will not include PII but have the customer name, Phone Number, Birhtdate, Social Security Number, Application ID number, Vehicle description interest rate and amount approved.
- 4
- Upon loan acceptance by customer, RouteOne will virtually send the contract to FHB's Meridian Link via eContracting for verification against credit decisioning information processed by LoansPQ. RouteOne will vault the authoratative ecopy of the document and store the contract. eContracts are secured through the use of digital signatures to ensure the integrity of eContracts.

Data Types

- Sensitive Customer Information (loan application)
 - Name
 - Address
 - Telephone Number
 - Cell/Mobile Number
 - Social Security Number (SSN)
 - Taxpayer Identification Number (TIN)
 - Driver's Licesnse Number
 - Date of Birth
 - Salary Information
 - Credit decision (i.e., approve/deny, interest rate, fees)

Data Transfer

- Credit reports will only be accessible through Meridian Link and data will not be sent to RouteOne. (One-way data flow from RouteOne to Meridian Link)'
- It is estimated that RouteOnen will be used by approx. 10% of FHB's dealerships resulting in up to 25-50 loans per month

Comliancne Requirrements

- GLBA

Access Scenarios

- FHB Employees will not have direct access to RouteOne or any of its products. FHB will only have access to MeridianLink LoansPQ which has an integration with RouteOne to recieve Loan application's from Dealerships for FHB review.
- FHB will be emailed statements based on the amount of Applications sent to Meridian Link form RouteOne.
- RouteOne is mostly limited to Ford dealerships. 15-20% of dealers use RouteOne

Cyber Risk Scenarios (Confidentiality, Integrity, Availability Impacts)

- Data breach - Sensitive Customer Information (Medium Impact)
- FHB Employee MeridianLink Compromised credentials (FHB does nto have credentials to access RouteOne products. We only recieve an invoice pbased on amounth of applciations submitted to Meridian Link) (Low Impact)
- FHB employee endpoint compromise (High Impact)
- Cyber disruption (If service goes down all competitor lenders would be affected) - (Low Impact)
